A non-conforming use of land, or a non-conforming use of a structure and land in combination shall not be extended or enlarged after passage of this Resolution by attachment on a building or premises of additional signs intended to be seen from off the premises, or by the addition of other uses of a nature which would be generally prohibited in the district in which such use is located.

Section 420 Avoidance of Undue Hardship. To avoid undue hardship, nothing in this Resolution shall be deemed to require a change in the plans, construction, or designated use of any building on which actual construction, was lawfully begun prior to the effective date of adoption or amendment of this Resolution and upon which actual building construction has been carried on diligently. Actual construction is hereby defined to include the placing of construction materials in permanent position and fastened in a permanent manner. Where demolition or removal of an existing building has been substantially begun preparatory to rebuilding, such demolition or removal shall be deemed to be actual construction, provided that work shall be carried out diligently.

Section 430 Single Non-Conforming Lots of Record. In any district in which single-family dwellings are permitted, a single-family dwelling and customary accessory buildings may be erected on any single lot of record at effective date of adoption or amendment of this Resolution notwithstanding limitations imposed by other provisions of this Resolution. Such lot must be in separate ownership and not of continuous frontage with other lots in the same ownership. This provision shall apply even though such lot fails to meet the requirements for area or width, or both, that are generally applicable in the district, provided that yard dimensions and requirements other than those applying to area or width, or both, of the lot shall conform to the regulations for the district in which such lot is located. Variances of requirements listed in Article 9 and 10 of this Resolution other than lot area or lot width shall be obtained only through action of the Board of Zoning Appeals as provided in Section 540 through 549.

Section 431 Non-Conforming Lots of Record in Combination. If two or more lots or a combination of lots and portions of lots with continuous frontage in single ownership are of record at the time of passage or amendment of this Resolution and if all or part of the lots with no buildings do not meet the requirements established for lot width and area, the lands involved shall be considered to be an undivided parcel for the purposes of this Resolution and no portion of said parcel shall be used or sold in a manner which diminishes compliance with lot width and area requirements established by this Resolution, nor shall any division of any parcel be made which creates a lot with a width or area below the requirements stated in this Resolution.

Section 440 Non-Conforming Uses of Land. Where, at the time of adoption of this Resolution lawful uses of land exist which would not be permitted by the regulations imposed by this Resolution, the uses may be continued so long as they remain otherwise lawful, provided:

1. No such non-conforming uses shall be enlarged or increased nor extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this Resolution.
2. No such non-conforming uses shall be moved in whole or in part to any portion of the lot or parcel other than that occupied by such uses at the effective date of adoption or amendment of this Resolution.
3. If any such non-conforming uses of land are discontinued or abandoned for more than two (2) years (except when government action impedes access to the premises), any subsequent use of such land shall conform to the regulations specified by this Resolution for the district in which such land is located.
4. No additional structure not conforming to the requirements of this Resolution shall be erected in connection with such nonconforming use of land.

Section 450 Non-Conforming Structures. Where a lawful structure exists at the effective date of adoption or amendment of this Resolution by reason of restrictions on area, lot coverage, height, yards, its location on the lot, bulk, or other requirements concerning the structure, such structure may be continued so long as it remains otherwise lawful, subject to the following provisions:

1. No such non-conforming structure may be enlarged or altered in a way which increases its non-conformity, but any structure or portion thereof may be altered to decrease its non-conformity;
2. Should such non-conforming structure or non-conforming portion of structure be destroyed by fire or an Act of God, it may after approval by the Board of Zoning Appeals, be reconstructed as it previously existed. All remaining debris shall be cleared away and disposed of properly within two months of the time of destruction;
3. Should such structure be moved for any reason for any distance whatever, it shall thereafter conform to the regulations for the district in which it is located after it is moved.

Section 456 Non-Conforming Uses of Structures or of Structures and Land in Combination.

If a lawful use involving individual structures, or of a structure and land in combination, exists at the effective date of adoption or amendment of this Resolution that would not be allowed in the district under the terms of this Resolution, the lawful use may be continued so long as it remains otherwise lawful, subject to the following provisions:

1. No existing structure devoted to a use not permitted by this Resolution in the district in which it is located shall be enlarged, extended, constructed, reconstructed, moved, or structurally altered except in changing the use of the structure to a use permitted in the district in which it is located;
2. Any non-conforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use at the time of adoption or amendment of this Resolution; but no such use shall be extended to occupy any land outside such building;

3. If no structural alterations are made, any non-conforming use of a structure or structure and land, may upon appeal to the Board of Zoning Appeals, be changed to another non-conforming use provided that the Board of Zoning Appeals shall find that the proposed use is equally appropriate or more appropriate to the district than the existing non-conforming use. In permitting such change, the Board of Zoning Appeals may require appropriate conditions and safeguards in accord with other provisions of this Resolution.
4. Any structure, or structure and land in combination, in or on which a non-conforming use is superseded by a permitted use, shall thereafter conform to the regulations for the district, and the non-conforming use may not thereafter be resumed;
5. When a non-conforming use of a structure, or structure and land in combination is discontinued or abandoned for more than two (2) years (except when government action impedes access to the premises), the structure or structure and land in combination, shall not thereafter be used except in conformity with the regulations of the district in which it is located;
6. Where non-conforming use status applies to a structure and land in combination, removal or destruction of the structure shall eliminate the non-conforming status of the land except as stated in Section 450 paragraph 2.

Section 470 Repairs and Maintenance. On any non-conforming structure or portion of a structure containing a non-conforming use, work may be done on ordinary repairs, or on repair or replacement of non-bearing walls, fixtures, wiring, or plumbing, provided that the cubic content existing when it became non-conforming shall not be increased. Nothing in this section shall be deemed to prevent the strengthening or restoring to a safe condition of any building or part thereof declared to be unsafe by any official charged with protecting the public safety, upon order of such official.

Section 480 Uses Under Conditional Use Provisions Not Non-Conforming Uses. Any use which is permitted as a conditional use in a district under the terms of this Resolution shall not be deemed a nonconforming use in such district, but shall without further action be considered a conforming use.

A concurring vote of three (3) members of the Board shall be necessary to reverse any order, requirement, decision, or determination of the Zoning Inspector, or to decide in favor of the applicant on any matter upon which it is required to pass under this Resolution. For the purpose of this Resolution the Board has the following specific responsibilities:

1. To hear and decide appeals where it is alleged there is an error in any order, requirement, decision, interpretation, or determination made by the Zoning Inspector;
2. To authorize such variances from the terms of this Resolution as will not be contrary to the public interest, where, owing to the special conditions, a literal enforcement of this Resolution will result in unnecessary hardship, and so that the spirit of this Resolution shall be observed and substantial justice done;
3. To grant conditional use permits as specified in the Official Schedule of District Regulations and under the conditions specified in Article 9 and such additional safeguards as will uphold the intent of this Resolution.

Section 530 Duties of Zoning Inspector, Board of Zoning Appeals, Legislative Authority and Courts on Matters of Appeal. It is the intent of this Resolution that all questions of interpretation and enforcement shall be first presented to the Zoning Inspector, and that such questions shall be presented to the Board only on appeal from the decision of the Zoning Inspector, and that recourse from the decisions of the Board shall be to the courts as provided by law. It is further the intent of this Resolution that the duties of the Township Trustees in connection with this Resolution shall not include hearing and deciding questions of interpretation and enforcement that may arise. The procedure for deciding such questions shall be as stated in this section and this Resolution. Under this Resolution the Township Trustees shall have only the duties of considering and adopting or rejecting proposed amendments or the repeal of this Resolution as provided by law; and of establishing a schedule of fees and charges as stated in Section 360 of this Resolution. Nothing in this Resolution shall be interpreted to prevent any official of the Township from appealing a decision of the Board to the courts as provided in the Ohio Revised Code. Any such appeal shall be made within ten (10) days of the Board's written decision.

Section 540 Procedure and Requirements for Appeals and Variances. Appeals and variances shall conform to the procedures and requirements of Sections 541-549, inclusive, of this Resolution. As specified in Section 522, the Board of Zoning Appeals has appellate jurisdiction relative to appeals and variances.

Such appeal shall be taken within twenty (20) days after the decision by filing, with the Zoning Inspector and with the Board of Zoning Appeals, a notice of appeal specifying the grounds upon which the appeal is being taken. The Zoning Inspector shall transmit to the Board of Zoning Appeals all the papers constituting the record of the action under consideration.

Section 542 Stay of Proceedings. An appeal stays all proceedings in furtherance of the action appealed from, unless the Zoning Inspector from whom the appeal is taken certifies to the Board of Zoning

Appeals after the notice of appeal is filed with him that by reason of facts stated in the application, a stay would in his opinion, cause imminent peril to life and property. In such case, proceedings shall not be stayed other than by a restraining order which may be granted by the Board of Zoning Appeals or by a court of record on application, on notice to the Zoning Inspector from whom the appeal is taken on the cause shown.

Section 543 Variances. The Board of Zoning Appeals may authorize upon appeal in specific cases such variance from the terms of this Resolution as will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of this Resolution would result in unnecessary hardship. No non-conforming use of neighboring lands, structures, or buildings in the same district and no permitted or non-conforming use of lands, structures, or buildings in other districts shall be considered grounds for issuance of a variance. Variances shall not be granted on the grounds of convenience or profit, but only where strict application of the provisions of this Resolution would result in unnecessary hardship.

Section 544 Application and Standards for Variances. A variance from the terms of this Resolution shall not be granted by the Board of Zoning Appeals unless and until a written application for a variance is submitted to the Zoning Inspector and the Board of Zoning Appeals containing:

1. Name, address, and telephone number of applicants;
2. Legal description of property;
3. Description or nature of variance requested;
4. A narrative statement demonstrating that the requested variance conforms to the following standards;
 - a. That special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures, or buildings in the same district;
 - b. That a literal interpretation of the provisions of this Resolution would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this Resolution;
 - c. That special conditions and circumstances do not result from the actions of the applicant;
 - d. That granting the variance requested will not confer on the applicant any special privilege that is denied by this Resolution to other lands, structures, or buildings in the same district.

A variance shall not be granted unless the Board makes specific findings of fact based directly on the particular evidence presented to it, which support conclusions that the standards and conditions imposed by subsection 4 of this section have been met by the applicant.

Section 545 Supplementary Conditions and Safeguards. Under no circumstances shall the Board of Zoning Appeals grant an appeal or variance to allow a use not permissible under the terms of this Resolution in the District involved, or any use expressly or by implication prohibited by the terms of this Resolution in said district. In granting any appeal or variance, the Board of Zoning Appeals may prescribe appropriate conditions and safeguards in conformity with this Resolution. Violation of such

conditions and safeguards, when made a part of the terms under which the appeal or variance is granted, shall be deemed a violation of this Resolution and punishable under Section 350 of this Resolution.

Section 546 Public Hearing by the Board of Zoning Appeals. The Board of Zoning Appeals shall hold a public hearing not more than forty (40) days after receipt of a notice of appeal or application for variance.

Parties of interest shall include, but not be limited to, property owners contiguous to and directly across the road (street) from the property concerned. The notice shall contain the same information as required of notices as specified in Section 547.

[Effective 01/15/2026]

Within thirty (30) days after the public hearing required in Section 547, the Board of Zoning Appeals shall either approve, approve with supplementary conditions as specified in Section 545, or disapprove the request for appeal or variance. The Board of Zoning Appeals shall further make a finding that the reasons set forth in the application justify the granting of the variance that will make possible a reasonable use of the land, building, or structure. Appeals from Board decisions shall be made in the manner specified in Section 530.

Section 550 Implementation of BZA Decisions. Decisions of the Board of Zoning Appeals shall be implemented within thirty (30) days unless either party files an appeal with the Court of Common Pleas. Otherwise, fines, as detailed in Section 350 of this Resolution, may apply.

It is recognized that an increasing number of new kinds of uses are appearing daily, and that many of these and some other more conventional uses possess characteristics of such unique and special nature relative to location, design, size, method of operation, circulation, and public facilities that each specific use must be considered individually. These specific uses as they are conditionally permitted under the provisions of Article 9, shall follow the procedures and requirements set forth in Sections 562-568, inclusive.

7. A written statement evaluating the effects on adjoining property from noise, odor, lighting, traffic, security, waste disposal and drainage; as well as a discussion of the general compatibility with all properties within one half mile from any lot line of the subject property.
[Effective 08/14/2003; Effective 03/23/2006]

Section 563 General Standards Applicable to all Conditional Uses. The Board shall review the particular facts and circumstances of each proposed use in terms of the following standards and shall find adequate evidence showing that such use at the proposed location:

1. Is in fact a conditional use as established under the provisions of Article 9 and appears on the Official Schedule of District Regulations adopted by Section 910 for the zoning district involved;
2. Will be designed, constructed, operated, and maintained so as to be harmonious and appropriate in appearance with the existing or intended character of the general vicinity and that such use will not change the essential character of the same area;
3. Will not be hazardous or disturbing to existing or future neighboring uses;

Will be served adequately by essential public facilities and services such as highways, streets, police and fire protection, drainage structures, refuse disposal, water and sewer, or that the persons or agencies responsible for the establishment of the proposed use shall be able to provide adequately any such services;
5. Will not create excessive additional requirements at public cost for public facilities and services and will not be detrimental to the economic welfare of the community;
6. Will not involve uses, activities, processes, materials equipment and conditions of operation that will be detrimental to property, or the general welfare by reason of excessive production of traffic, noise, smoke, fumes or odors;
7. Will have vehicular approaches to the property which shall be so designed as not to create an interference with traffic on surrounding public thoroughfares.

Section 565 Supplementary Conditions and Safeguards. In granting any conditional use, the Board may prescribe appropriate conditions and safeguards in conformity with this Resolution. Violations of such conditions and safeguards, when made a part of the terms under which the conditional use is granted, shall be deemed a violation of this Resolution and punishable under Section 350 of this Resolution.

Section 566 Procedure for Hearing, Notice. Upon receipt of the application for a conditional use permit specified in Section 562 the Board shall hold a public hearing, publish notice, and give written notice to all parties in interest according to the procedures specified in Section 545 through 548.

If the application is approved or approved with modifications, the Board shall direct the Zoning Inspector to issue a conditional use permit listing the specific conditions specified by the Board for approval. If the application is disapproved by the Board, the applicant may seek relief through the Court of Common Pleas. Appeals from Board decisions shall be made in the manner specified in Section 530.

Section 568 Expiration of Conditional Use Permit. A conditional use permit shall be deemed to authorize only one particular conditional use, and said permit shall automatically expire if such conditionally permitted use has not been instituted or utilized within one (1) year of the date on which the permit was issued, or if, for any reason such use shall cease for more than two (2) years. Change of ownership shall have no effect on the validity of the conditional use.

ARTICLE VIII ESTABLISHMENT AND PURPOSE OF DISTRICTS

Section 800 Intent. The following zoning districts are hereby established for the township. For the interpretation of this Resolution, the zoning districts have been formulated to realize the general purposes as set forth in the preamble of this Resolution. In addition, the specific purpose of each zoning district shall be as stated.

Section 810 Rural District (U-1). The purpose of the U-1 rural district is to provide land which is-suitable or used for agriculture, conservation, very low density residential and public and quasi-public purpose. Very low density residential land use refers to farm housing units and isolated residential developments not requiring a major plat under the County's Subdivision Regulations. (A major plat consists of 6 or more lots). Some residential, commercial and industrial development may be permitted as conditional uses under Section 560. On-site water and sewer facilities are permitted, provided such facilities comply with the Union County Health Department regulations. Specific permitted and conditional uses are listed on the Official Schedule of District Regulations

Section 811 Low Density Residential District (R-1). The purpose of the R-1 low density residential district is to provide land for single family dwelling units not to exceed four dwelling units per acre with a central sewerage system. This district shall also include land that is subdivided which requires a major plat under the County's Subdivision Regulations. (A major plat consists of 6 or more lots). Specific permitted and conditional uses are listed on the Official Schedule of District Regulations.

Section 812 Medium Density Residential District (R-2). The purpose of the R-2 District is to permit the establishment of medium density single family dwellings not to exceed eight (8) dwelling units per gross acre if a central sewerage system is available. Also, this classification more closely resembles the existing development pattern within the older developed sections of Broadway. Light manufacturing is a conditional use. Specific permitted and conditional uses are listed on the Official Schedule of District Regulations

Section 814 Light Manufacturing District (M-1). The purpose of the M-1 district is to provide land for manufacturing or industrial type facilities which are relatively clean, quiet and free of objectionable elements such as noise, odor, dust, smoke, *etc.*; operate mostly within enclosed structures; and do not generate as much traffic as would be found in a heavy manufacturing district. Specific permitted and conditional uses are listed on the Official Schedule of District Regulations.

Section 1001 Conversion of Dwellings to More Units. A residence may be converted to accommodate an increased number of dwelling units provided:

1. The yard dimensions, including minimum lot width still meet the yard dimensions required by the zoning regulations for new structures in that district in which the dwelling is located.
2. The lot area per family equals the lot area requirements for new structures in that district;
3. The floor area per dwelling unit is not reduced to less than that which is required for new construction in that district.

Section 1002 Private Swimming Pools. A private swimming pool, not including farm ponds, shall be any pool, lake, or open tank not located within a completely enclosed building and containing or normally capable of containing water to a depth at any point greater than one and one-half feet. No such swimming pool, exclusive of portable swimming pools with a diameter less than 12 feet or with an area of less than 100 square feet shall be allowed in any residential district, except as an accessory use and unless it complies with the following conditions and requirements:

1. The pool is intended and is to be used solely for the enjoyment of the occupants of the principal use of the property on which it is located.
2. It may not be located, including any walks or paved areas or accessory structures adjacent thereto, closer than 10 feet to any property line of the property on which it is located.
3. The swimming pool or the entire property on which it is located shall be walled or fenced to prevent uncontrolled access by children from adjacent properties. Said fence or wall shall be not less than five feet in height and maintained in good condition with a gate and lock.

Section 1003 Community or Club Swimming Pools. Community and club swimming pools are permitted as commercial or non-commercial recreation in accordance with the Official Schedule of District Regulations and shall comply with the following conditions and requirements:

1. The pool is intended solely for the enjoyment of the members and families and guests of members of the association or club under whose ownership or jurisdiction the pool is operated;
2. The pool and accessory structures thereto, including the areas used by the bathers, shall not be closer than fifty feet to any property line;
3. The swimming pool and all of the area used by the bathers shall be walled or fenced to prevent uncontrolled access by children from the thoroughfare or adjacent properties. Said fence or wall shall not be less than five feet in height and maintained in good condition.

Section 1004 Temporary Construction Buildings. Temporary construction buildings, construction trailers, equipment and materials used in conjunction with construction work only may be permitted in any district during the period construction work is in progress, but such temporary facilities shall be removed upon completion of the construction work. Storage of such facilities or equipment beyond the completion date of the project shall require a zoning permit authorized by the Zoning Inspector.

Section 1005 Parking and Storage of Certain Vehicles. The following provisions and requirements shall pertain to the parking and storage of certain vehicles:

1. The parking or storage, within any district, of automotive vehicles without current license plates, for a period of more than thirty days shall be prohibited unless such vehicle is stored in an enclosed garage or other accessory building;

Section 1077 Small Solar Energy Systems (Less Than 50 MW).

A. Accessory Solar Energy Systems

It is the purpose of this regulation to promote the safe, effective, and efficient use of accessory solar energy systems installed to reduce the on-site consumption of utility-supplied electricity. An accessory solar energy system shall be considered a permitted accessory use in any district provided all requirements and regulations as set forth below are met.

No person shall cause, allow or maintain the use of an accessory solar energy system without first having obtained a zoning permit from the zoning inspector.

All accessory solar energy systems shall meet the following requirements:

1. An accessory solar energy system is permitted in all zoning districts as an accessory to a principal use.
2. An accessory solar energy system shall not be used for the generation of power for the sale or donation of energy to other users, although this provision shall not be interpreted to prohibit the sale or donation of excess power generated from time to time to the local utility company or the sale or donation of power as part of a net metering or similar arrangement. Net metering or similar arrangements are those where electricity produced by the accessory solar energy system displaces electricity that would otherwise be purchased from an electric utility or supplier for the lot where the accessory system is located. Net metering or similar arrangements shall be incidental and secondary to the production for on-site use.
3. Accessory solar energy systems with a generation output of five hundred (500) watts or less, or a combination of accessory solar energy systems with an aggregate generation output of five hundred (500) watts or less, shall not require a permit and shall be exempt from the requirements of this section, provided that the system is independent and disconnected from the electrical service(s) supplied to the lot on which the accessory solar energy system is located.
4. Roof/Building mounted solar energy systems:
 - a. Shall not extend beyond the perimeter (or edge of roof) of the building on which it is located.
 - b. May be mounted to a principal or accessory building.
 - c. The height of the solar energy system and building to which it is mounted may not exceed the ridgeline of the roof for hip, gable, and gambrel roofs.
5. Ground/Pole mounted solar energy systems:
 - a. Shall be no taller than seventy-five percent (75%) of the maximum building height allowed in the zoning district for accessory buildings.
 - b. Shall be permitted in the rear or side yard only.
 - c. Shall be erected within an established clear fall zone.
 - d. The minimum setback distance from the property lines for structures comprising solar energy systems and all related equipment shall be at least one hundred ten percent (110%) of the height of any structure or at least twenty feet (20') from the nearest property line, whichever is greater.
6. Other structure mounted accessory solar energy systems:
 - a. Shall be no taller than seventy-five percent (75%) of the maximum building height allowed in that zoning district for accessory buildings.
 - b. Shall be permitted in the rear or side yard only.
 - c. Shall be erected within an established clear fall zone.
 - d. The minimum setback distance from the property lines for structures comprising solar energy systems and all related equipment shall be at least one hundred ten (110%) percent of the height of any structure or at least twenty feet (20') from the nearest property line, whichever is greater.
7. Accessory solar energy systems shall be designed and located in order to prevent reflective glare toward any inhabited structure on adjacent properties as well as adjacent street right of ways.

8. Accessory solar energy systems and all solar energy equipment that are no longer functioning shall be completely removed from the property within six (6) months from the date they are no longer producing electricity, become damaged, discontinued or broken. Any earth disturbance as a result of the removal of the accessory solar energy system shall be graded and reseeded within thirty (30) days of removal.
9. In addition to the site plan required for any zoning permit or conditional use permit, the following shall also be submitted at the time of the application and shall include:
 - a. Height of the proposed solar energy system(s) at maximum tilt.
 - b. Evidence of established setbacks of 1.1 times the height of any ground/pole mounted or other structure mounted solar energy system and “clear fall zone”.
 - c. Proof of notice to the electric utility company, Soil and Water Conservation District (for drainage impact purposes), and County Health Department/District (for on-site sewage treatment impacts) regarding the proposal.

10. Principal Solar Energy Production Facilities

No Principal Solar Energy Production Facility shall be located in a zoning district where such facilities are not explicitly listed as a permitted or conditionally permitted use.

It is not the purpose of this regulation to regulate a major utility facility as defined by the Ohio Revised Code, which is regulated by the Ohio Power Siting Board (50 MW or greater).

Principal Solar Energy Production Facilities are prohibited in any district.

[Effective 05/18/2022; Effective 11/16/2023]
