Wade,

I asked again after your second request this morning and received the answers below:

1. Please refer Wade to the Marysville Utilities GIS website.
2. Pulte will be extending water through our planned site, but it could be 4+ years before we get it to Currier Rd.
3. We're planning a regional Pump Station on our site, but won't be fully operational until ~ 2026 and it could be 4+ years before we get sewer lines to Currier Rd.

Bottom line, it will be several years before the services are close by.

Does this provide the information that you were looking for?

-Joe
