

GLACIER POINTE SECTION 5 PHASE 3

UNION COUNTY STANDARD DEED RESTRICTIONS
(as applicable)

- There shall be no discharge into any streams or storm water outlets of any waste materials in violation of applicable local, state or federal regulations.
- Maintenance of drainage swales shall be the responsibility of the Owners' Association. If any owner damages a swale, that owner shall be responsible for the repair. Repairs shall be made immediately. Existing drain tiles within the subdivision shall be retained in good working order or shall be re-routed so that drainage entering the tiles will continue to flow freely.
- No construction may begin or building started without the individual lot owner obtaining zoning, building, water well, sewage disposal and driveway permits. Zoning permits are obtained from the township zoning inspector. Building permits and driveway permits are obtained from the Union County Building Regulation Department. Sewage disposal and water well permits are obtained from the Union County Board of Health.
- Downspout drains shall not be connected directly to the roadway underdrains.
- For any building proposed to be built within the 100 year flood zone, the standards of the Union County Flood Damage Prevention Resolution must be met. No construction may begin or building started within a designated Flood Hazard Area prior to the issuance of a Flood Hazard Permit by the Union County Building Regulation Department.
- Grading of the storm water detention area shall not be changed.
- All construction shall meet the requirements of the township, Union County and other applicable code authorities.
