Hi Wade!

Per our conversation this afternoon, my engineer has provided me with a preliminary cost estimate for the 10 lots on Currier Rd. Columbia would need to extend approximately 3,000' to reach all 10 homes. The preliminary cost to you would be between \$180,000-\$200,000 for Columbia to do this work. There is also some long lead times. We will need an environmental permit 6-8 months, Surveying of existing utilities at the bridge and a possible easement required at the crossing.

If you would like to move forward with this project I will need CAD of the proposed site plans and if you have it available the foreign utility information.

Please let me know if you have any questions.
