Comments from Individuals

- Scott the GIS task force in Union County, who pays? Is it from the Union County planner?
 - o Jenny No, this task force was developed several years ago

Director: Jenny R. Snapp

- Joanna This is a different task force that has been in existence for several years; it's much more active this past year
- Scott How was this funded?
- Kyle It was funded by the county; \$59 per year for the web-site.
- o Jeff We wanted to try an outside source to start with
- Joanna Long term we would like to see more governments move to web based; if things are web based then there is not the difficulty of sharing information
- Scott It's opened to the public?
- Kyle Not at this time, but in the future it will be, once all the information is on there
- o John How does Franklin County have theirs, is it web based?
- o Kyle It's web based
- o Joanna Does Dublin participate with Franklin County with file sharing?
- Paul We do our own but we share with others as needed; not sure if it's web based
- o Joanna Web based in the long run is the goal
- Kyle One of the reasons for the wiki site is to allow people to put things on there; and it becomes a database, not owned by one person but shared
- Jeff Have you done your presentation on GIS to show examples at the Executive Committee meeting? It's impressive to take that data and turn it into a map. I really think that's something that should be presented here.
- Barry Dover is about to get their first wind turbine application; the turbine is going to be about 88 feet tall and will be personal use. Recently became an issue where a mobile home has filed bankruptcy and the township has to try and help. Is there a grant that exists that Dover can help those that want to stay in the trailers, stay?
- Charles Route 38 at Plumwood is out while they are replacing a bridge; Route 4N of town at Engineer's site at the end of June will be closed down to replace culverts
- Jeff Near Fairbanks high school there will be a road closure.
