Section 530 Duties of Zoning Inspector, Board of Zoning Appeals, Legislative Authority, and Courts on Matters of Appeal. It is the intent of this Resolution that all questions of interpretation and enforcement shall be first presented to the Zoning Inspector, and that such questions shall be presented to the Board only on appeal from the decision of the Zoning Inspector and that recourse from the decisions of the Board shall be to the courts as provided by law. It is further the intent of this Resolution that the duties of the Township Trustees in connection with this Resolution shall not include hearing and deciding questions of interpretation and enforcement that may arise. The procedure for deciding such questions shall be as stated in this section and this Resolution. Under this Resolution the Township Trustees shall have only the duties of considering and adopting or rejecting proposed amendments or the repeal of this Resolution as provided by law; and of establishing a schedule of fees and charges as stated in Section 360 of this Resolution. Nothing in this Resolution shall be interpreted to prevent any official of the Township from appealing a decision of the Board to the courts as provided in the Ohio Revised Code. Any such appeal shall be made within ten (10) days of the Board's written decision.

Section 540 Procedure and Requirements for Appeals and Variances. Appeals and variances shall conform to the procedures and requirements of Sections 541-549, inclusive, of this Resolution. The Zoning Inspector shall transmit to the Board of Zoning Appeals all the papers constituting the record upon which the action appealed from was taken.

Section 542 Stay of Proceedings. An appeal stays all proceedings in furtherance of the action appealed from, unless the Zoning Inspector from whom the appeal is taken certified to the Board of Zoning Appeals after the notice of appeal is filed with him that by reason of facts stated in the application, a stay would in his opinion, cause imminent peril to life and property. In such case, proceedings shall not be stayed other than by a restraining order which may be granted by the Board of Zoning Appeals or by a court of record on application, on notice to the Zoning Inspector from whom the appeal is taken on due cause shown.

Section 543 Variances. The Board of Zoning Appeals may authorize upon appeal in specific cases such variance from the terms of this Resolution as will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of this Resolution would result in unnecessary hardship. No non-conforming use of neighboring lands, structures, or buildings in the same district and no permitted or non-conforming use of lands, structures, or buildings in other districts shall be considered grounds for issuance of a variance. Variances shall not be granted on the grounds of convenience or profit, but only where strict application of the provisions of this Resolution would result in unnecessary hardship.

Section 544 Application and Standards for Variances. A variance from the terms of this Resolution shall not be granted by the Board of Zoning Appeals unless and until a written application for a variance is submitted to the Zoning Inspector and the Board of Zoning Appeals containing:

1. Name, address, and phone number of applicants;
2. Legal description of property including a copy of the deed;
3. Description or nature of variance requested;
4. A narrative statement demonstrating that the requested variance conforms to the following standards:
 - a. That special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures, or buildings in the same district.
 - b. That a literal interpretation of the provisions of this Resolution would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this Resolution;
 - c. That special conditions and circumstances do not result from the actions of the applicant;
 - d. That granting the variance requested will not confer on the applicant any special privilege that is denied by this Resolution to other lands, structures, or buildings in the same district.

A variance shall not be granted unless the Board makes specific findings of fact based directly on the particular evidence presented to it, which support conclusions that the standards and conditions imposed by subsection 4 of this section have been met by the applicant.

Section 545 Supplementary Conditions and Safeguards. Under no circumstances shall the Board of Zoning Appeals grant an appeal or variance to allow a use not permissible under the terms of this Resolution in the District involved, or any use expressly or by implication prohibited by the terms of this Resolution in said district. In granting any appeal or variance, the Board of Zoning Appeals may prescribe appropriate conditions and safeguards in conformity with this Resolution. Violation of such conditions and safeguards, when made a part of the terms under which the appeal or variance is granted, shall be deemed a violation of this Resolution and punishable under Section 350 of this Resolution.

Within thirty (30) days after the public hearing required in Section 547, the Board of Zoning Appeals shall either approve, approve with supplementary conditions as specified in Section 545, or disapprove the request for appeal or variance. The Board of Zoning Appeals shall further make a finding that the reasons set forth in the application justify the granting of the variance that will make possible a reasonable use of the land, building, or structure. Appeals from Board decisions shall be made in the manner specified in Section 530.

Section 560 Procedure and Requirements For Approval of Conditional Use Permits. Conditional uses shall conform to the procedures and requirements of Section 561-568, inclusive of this Resolution.

ARTICLE XIV TELECOMMUNICATIONS TOWERS.

Section 1400 Intent. It is the intent of Article XIV to regulate all telecommunications towers in residential (U-1 and R-1) districts for the safety and general welfare of the community and to protect adjoining public and private property to the full extent permitted by federal and state law. In the event that state law should change to permit regulation, by zoning, of telecommunications towers in other than residential districts, Article XIV shall from that time apply to all zoned districts to the extent permitted by state law.

Section 1410 Telecommunications Towers in Residential Areas.

Telecommunications towers in residential districts (U-1 and R-1) may be allowed as a conditional use. A person seeking to erect, construct, reconstruct, or move, or a person who seeks to allow others to erect, construct, reconstruct, or move a telecommunications tower on that person's land, in a residential district (U-1 and R-1), must comply with the provisions of Section 519.211(B) of the Ohio Revised Code as most recently amended, or any code section replacing that section and, if the township trustees notify said person that the proposed tower will be subject to Goshen Township's Zoning Resolution, the person must apply for a conditional use permit. In the event that Section 519.211 of the Ohio Revised Code is repealed or altered, such that notice by the Goshen Township Trustees becomes unnecessary, said person shall be required to apply for a conditional use permit without any notice from the Board of Trustees.

Section 1420 Minimum Standards for Telecommunications Towers.

1. **Set back.** Set backs shall be measured from the edge of the property line and the edge of the public rights of way abutting the property on which a proposed telecommunications tower is to be erected, constructed, reconstructed, or moved.
2. **Building Codes.** Telecommunications towers and all structures associated with said towers shall comply with all applicable building codes and other applicable state laws.
3. **Other Permits Required.** A person proposing to erect, construct, reconstruct, or move a telecommunications tower must provide evidence to the township zoning inspector along with the application for conditional use permit, copies of all county, state, and federal permits required in connection with the erection, construction, reconstruction, or moving of said tower (such permits would include, but are not necessarily limited to county or state building permits, state and federal EPA permits, health district permits, FAA, and FCC permits). If said permits are pending at the time of the application for a conditional use permit, the person proposing to erect, construct, reconstruct, or move the tower shall provide evidence (suitable to the zoning inspector) that such permits are pending, but shall not begin construction of any part of the project until copies of all permits are received by the zoning inspector.

4. **Shared Use.** A person proposing to erect, construct, reconstruct, or move telecommunications towers must abide by the following:
- a. At the time of the application for a conditional use permit, the person proposing to erect, construct, reconstruct, or move a telecommunications tower shall provide an affidavit by a responsible person, supported by documentary evidence demonstrating that said person has made reasonable efforts to mount their telecommunications equipment on a nearby already existing tower or tower already under construction or stating, with supporting documentation, from an individual technically qualified to make such statement that no such tower exists or is being constructed sufficiently close to the location required for the proposed telecommunications tower.
 - b. If the person proposing to erect, construct, reconstruct, or move a telecommunications tower has demonstrated that the proposed tower must be erected, constructed, reconstructed, or moved, then said person must, as a condition of the conditional use permit, agree to allow other persons to use their tower at a reasonable cost, if technologically permissible, for mounting telecommunications equipment.
5. **Abandonment.** A person proposing to erect, construct, reconstruct, or move a telecommunications tower must agree, as a condition of the conditional use permit, that the tower will be removed in the event that the tower has not been used for telecommunications purpose for more than one (1) year, as determined by the township zoning inspector. The zoning inspector shall provide notice of his or her determination to the holder of the permit. The holder of the permit shall be permitted to appeal the zoning inspector's determination to the Board of Zoning Appeals according to the times for such appeals set forth in other articles of this Zoning Resolution. If the abandoned telecommunications tower has not been removed entirely from the site and the site restored to its original condition within ninety (90) days from the date on the notice or from the date of the final decision of the Board of Zoning Appeals or any court from which a determination of the Board of Zoning Appeals has been affirmed, the township may remove the tower and dispose of it and all attached equipment, and may sell some for salvage to cover expenses and may charge uncovered expenses of said removal and disposal to the bond or letter of credit provided according to Section 1430. If the permit holder or property owner removes the tower, attendant structures may remain upon application for a change of use that is subsequently approved, but shall otherwise also be removed. If the township removed the tower, all attendant structures shall also be removed and removal expenses charged against the bond. A person proposing to erect, construct, reconstruct, or move a telecommunications tower must agree, as a condition of the conditional use permit, that the township has permission to enter the land to remove the tower, all attached equipment, and all attendant structures and

further must provide with its application a written license from the owner of the underlying property and any easement leading to and from the property on which the tower is to be erected permission for the township to enter upon the property to inspect the tower and structures to determine whether or not it has been abandoned and to remove the tower, all attached equipment, and all attendant structures.

6. **Guarantee Against Damage to Public or Private Property.** A person proposing to erect, construct, reconstruct, or move a telecommunications tower shall guarantee, as condition of the conditional use permit that if, during the erection, construction, reconstruction, moving, maintenance, or removal of the telecommunications tower, any injury or damages are suffered by any private property located within the township or by any public property including any public right of way within the township, said person or other holder of the permit shall restore the damaged or injured property to its condition prior to the damage or injury and that in the event, the property is not restored within thirty (30) days of notification, the owner of the damaged property may restore the property and may collect the expenses from the bond provided according to Section 1430, below. The person holding the conditional use permit shall be liable for damages caused by vehicles used in the erection, construction, reconstruction, maintenance, moving or removal of the tower, all attached equipment, and all attendant structures whether or not said vehicles are within state legal load limits and irrespective of whether reduced load limit signs have been posted on any roads damaged. Any vehicle or equipment that does exceed state-set legal weight limits must obtain permission not only from the state for traveling on state highways, but also from the county engineer for traveling on county highways and from the Board of Trustees of the township to travel on any township highways.
7. **Bond or Letter of Credit.** A person proposing to construct or erect telecommunications towers shall, as a condition of the conditional use permit, provide a bond or letter of credit according to the terms of Section 1430, below. A separate bond or letter of credit shall be provided for each separate tower, whether or not they share a common parcel of land.

Section 1430 Bond Requirements. Before being issued a conditional use permit to erect, construct, reconstruct, or move a telecommunications tower said person shall provide a bond or letter of credit. The amount of the bond or letter of credit shall be determined by the Board of Zoning Appeals based on information provided by the applicant as to the combined cost of erecting and removing the tower, all attached equipment, and all attendant structures, but shall be not less than one hundred thousand (\$100,000) nor more than two hundred fifty thousand dollars (\$250,000). The bond or letter of credit shall be to the benefit of the Goshen Township Board of Trustees or to any property owner in the township whose property has been damaged pursuant to Section 1420(6). The bond or letter of credit shall guarantee that all terms and conditions of Article XIV and of the conditional use permit are fully performed, including repairs to public or private property, including public rights of way. The bond or letter of credit shall be issued by a surety or bank approved by the Goshen Township Board of Trustees. By its terms, the bond or letter of credit may

not expire, be terminated, or cancelled without providing the Board of Trustees of Goshen Township with written notice of such expiration, termination, cancellation, or other event of non-renewal no later than one hundred twenty (120) days prior to the date of such event. Notice of termination of the bond will constitute irrebuttable proof of abandonment, pursuant to the terms of Section 1420(5).

No conditional use permit issued hereunder shall become operative and effective until said bond has been reviewed and approved by the Prosecuting Attorney of Champaign County, Ohio. No conditional use permit issued hereunder shall continue to have effect upon notice of any termination for any reason of the bond.
